

Recommended Review: The MCQ should be reviewed and updated annually in conjunction with the review of the Investment Policy Statement.

However, an update should happen within 90 days if:

- a. There is a significant change in the municipality's financial circumstances, or
- b. There is a significant change in the municipality's "money not required immediately"

A complete update is not needed for in-year change. Municipalities can provide written notice of changes by using the mid-year MCQ update form.

### 2. INVESTMENT KNOWLEDGE AND EXPERIENCE

2.1. Which statement best describes the Municipality's level of investment knowledge and experience with financial markets and products?

- □ Very limited knowledge
- □ Basic knowledge and minimal experience
- $\square$  Good knowledge and some investment experience
- □ Strong knowledge and experience
- □ Advanced knowledge and extensive experience

2.2 Check the following list of investments that apply to the Municipality's current investment portfolio. [*Check all that apply*]

- ☑ Canadian money market securities (e.g. Cash, bank accounts, HISA etc.)
- ☑ Locked-in Investments (GIC's PPN's etc.)
- ☑ Local Distribution Corporation Securities
- Securities held in third party trusts (i.e. cemetery trust, legacy fund etc.)
- ☑ Fixed income (government and/or corporate bonds)
- ☑ Equities

### 3. INVESTMENT OBJECTIVES AND RISK TOLERANCE

This section of the Questionnaire asks about the Municipality's Money Not Required Immediately (MNRI). In general, investors can expect a higher annualized rate of return if the investor is also willing to accept volatility or fluctuation in the market value of their investments. For example, investors can expect that the average annual rate of return for a five-year period will be higher where the portfolio's returns are varied when measured on a year by year basis, with some years having negative returns. A portfolio which has a steady return year over year, with little possibility of negative returns in any year, will most likely have a lower annualized return when measured on a rolling five-year average.

- 3.1Which of the following best reflects the Municipality's investment objectives for its MNRI?
  - □ Capital preservation is the main objective. Willingness to accept low returns in order to minimize the likelihood of losses.
  - $\square$  Achieve moderate growth without excessive risk to capital.
  - □ Willingness to accept higher risk, including risk of loss of capital, for potentially higher returns over the longer term
- 3.2 What is the Municipality's risk tolerance for its MNRI?
  - □ Conservative Approach: A very small chance of loss of capital over a 5-year period
  - $\ensuremath{\boxtimes}$  Moderate chance of loss of capital over a 5-year period
  - □ Greater uncertainty of outcomes with potential of higher returns over a 5-year period

3.3 Tolerance for losses: Quantify the temporary decline (an unrealized loss) in the value of investment your Municipality can tolerate over a one-year period? Note the ONE JIB invests MNRI with the objective of attaining returns over the *long term*. Minimizing short-term volatility also reduces long term growth potential.

- □ Less than 5% decline
- ☑ 5-10% decline
- □ 10-15% decline
- □ More than 15% decline

3.4 Other information: Is there any other information about the Municipality's investment objectives and risk tolerance for its MNRI that is relevant to the IPS or Investment Plan?

Sections 4 and 5 of this Questionnaire asks about the Municipality's assets, liabilities and cash flow and is not limited to MNRI. It is intended to assist ONE Investment in obtaining an understanding of the Municipality's financial circumstances, including its cash flow needs.

### 4. FINANCIAL INFORMATION

4.1Summary of financial information. Kindly confirm that the municipality has provided a recent copy of its audited financial statements with this MCQ.

☑ Yes □ No

4.2 Please provide a table showing reserves and reserve funds divided into "Money Required Immediately" and "Money Not Required Immediately" with investment time horizons. A template is provided on the following page as a guide.

Note: MNRI can be determined on the basis of time, source of funds, purpose of funds, or such other means as the municipality may decide is appropriate. As such, 'zero to 18 months' column of MNRI in the template might not be applicable for all municipalities.

4.4 Please provide a copy of the Municipality's multi-year capital plan and its asset management plan, to the best of your ability, by year and funding source.

#### Funding/Expenditure Analysis

4.5 How does the Municipality manage unanticipated requests for funding? Can you characterize the probability that the municipality may need to draw down MNRI to fund unexpected budget shortfalls?

The Town lacks a good 10 yr capital plan and are behind in our asset mgmt planning, therefore any financial plans that we have are not reliable.

As a result, our MNRI requirements are expected to change over the coming years as these plans get refined/completed.

4.6 If the Municipality has completed a capital budget and asset management plan, how many years does this forecast extend?

□ Less than 3 years □ 3-5 Years □ 5-10 Years □ 10 years or more

4.7 Are the reserves and reserve funds that represent MNRI growing annually for the Municipality? □ Yes □ No

4.8 If yes, at what approximate annual rate are they growing?

 $\Box$  1 to 2 %  $\Box$  3 to 4 %  $\Box$  Greater than 5 %

4.9 If no, at what approximate annual rate are they declining?

 $\Box$  1 to 2 %  $\Box$  3 to 4 %  $\Box$  Greater than 5 %

4.10 At what annual rate is the Municipality's capital expenditures rising?

 $\Box$  1 to 2 %  $\Box$  3 to 4 %  $\Box$  Greater than 5 %

4.11 Is there a particular year when the Municipality had unusual, large expected capital expenditure(s)?

☑ Yes □ No

4.12If so, please explain the timing and nature of the expenditure(s)

2023 - Road Urbanization(RDS276); 2024 - Roads Urbanization(RDS309), New Library Branch(LIB47)

2026 - Lefroy Arena Redevelopment (PKS135) 2029 - Stroud Arena Redeveloment(PKS136)

4.13Potential capital grants that are received could impact the municipality's MNRI. Please characterize any large grants that your municipality has a reasonable expectation of materializing.

Nothing anticipated or budgeted in addition to regular OCIF & Federal Gas Tax.

4.14The use of debt financing to fund future capital projects may reduce the need to drawdown MNRI to fund the projects. Please characterize how the municipality anticipates using debt financing to fund capital projects.

See debt capacity tab for details on anticipated debt requirements. This has already been incorporated into cash flow projections .

5.2 Less liquid securities can be pledged to the ONE JIB as part of the MNRI when the municipality joins the ONE JIB. It is contemplated that the proceeds from these pledged securities would be transitioned into the ONE Prudent Investor Outcomes at maturity or at an earlier date at the discretion of the participating municipality. Please identify below the details of pledged securities that the municipality may have.

- □ The municipality does not have locked in investments that represent a portion of MNRI
- □ The municipality has locked in investments that have previously been pledged to the ONE JIB as part of their MNRI
- □ The municipality is joining the ONE JIB and will need to include the following investments as pledged securities to the ONE JIB to represent a portion of their MNRI:
