

Annual Financial Statements

One Investment Pooled Funds

December 31, 2020

Independent auditor's report

To the Unitholders and Trustee of

ONE Canadian Government Bond Fund ONE Canadian Corporate Bond Fund ONE Global Bond Fund ONE Canadian Equity Fund ONE Global Equity Fund

(individually, a Fund)

Our opinion

In our opinion, the accompanying December 31, 2020 financial statements of each Fund present fairly, in all material respects, the financial position of each Fund, its financial performance and its cash flows as at December 31, 2020 and for the period from inception on July 2, 2020 to December 31, 2020 in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS).

What we have audited

The financial statements of each Fund comprise:

- the statement of financial position as at December 31, 2020;
- the statement of comprehensive income for the period from inception on July 2, 2020 to December 31, 2020;
- the statement of changes in net assets attributable to holders of redeemable units for the period from inception on July 2, 2020 to December 31, 2020;
- the statement of cash flows for the period from inception on July 2, 2020 to December 31, 2020; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

PricewaterhouseCoopers LLP PwC Tower, 18 York Street, Suite 2600, Toronto, Ontario, Canada M5J 0B2 T: +1 416 863 1133, F: +1 416 365 8215

Independence

We are independent of each Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements of each Fund in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the ability of each Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate any Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the financial reporting process of each Fund.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole for each Fund are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements of each Fund.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of each Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of each Fund.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of each Fund to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements of each Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause any Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of each Fund, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

ONE INVESTMENT POOLED FUNDS

Notes to Financial Statements

December 31, 2020

1. Establishment of funds

The ONE Investment Pooled Funds are open-ended unit trusts established under the laws of the Province of Ontario by Declaration of Trust dated July 2, 2020 and consists of ONE Canadian Government Bond Fund, ONE Canadian Corporate Bond Fund, ONE Global Bond Fund, ONE Canadian Equity Fund and ONE Global Equity Fund (the "Funds" and each, a "Fund"). ONE Investment is the Manager of the Funds (the "Manager"). CIBC Mellon Trust Company is the Trustee (the "Trustee") and the Custodian of the Funds (the "Custodian").

The Funds commenced operations on July 2, 2020.

The head office of the Funds is located at the offices of the Manager, 200 University Avenue, Suite 801, Toronto, Ontario, M5H 3C6.

The investment objective of the ONE Government Bond Fund is to provide investors with competitive rates of return through a diversified, conservatively managed portfolio consisting primarily of short-term Canadian bonds where preservation of capital in real terms is of prime concern.

The investment objective of the ONE Canadian Corporate Bond Fund is to provide competitive rates of return through a diversified, conservatively managed portfolio consisting primarily of Canadian bonds, debentures, promissory notes or other evidences of indebtedness of corporations, governments or agencies thereof or supranational organizations or agencies thereof.

The investment objective of the ONE Global Bond Fund is to deliver a strong, consistent total investment return over a full market cycle by investing primarily in government and corporate debt securities from developed and emerging markets.

The investment objective of the ONE Canadian Equity Fund is to provide superior long-term investment returns by investing in a diversified, conservatively managed portfolio consisting primarily of equity securities issued by Canadian corporations.

The investment objective of the ONE Global Equity Fund is to invest for above average long-term risk adjusted returns in securities of companies around the world. The Fund will allocate capital to the best global opportunities, which may include both large and small capitalization companies. The proportion invested in any one country will vary depending upon the economic, investment and market opportunities in each area.

The Funds are authorized to issue an unlimited number of units issuable in an unlimited number of series. One series is currently active.

2. Basis of presentation

These financial statements have been prepared in compliance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These financial statements were approved for issuance by the Manager on April 8, 2021.

ONE INVESTMENT POOLED FUNDS

Notes to Financial Statements

December 31, 2020 (continued)

3. Summary of significant accounting policies

The financial statements have been prepared on a going concern basis using the historical cost convention. However, each Fund is an investment entity and primarily all financial assets and financial liabilities are measured at fair value in accordance with IFRS. Accordingly, each Fund's accounting policies for measuring the fair value of investments and derivatives are consistent with those used in measuring the Net Asset Value ("NAV") for transactions with unitholders. The accounting policies set out below have been applied consistently to all periods presented in these financial statements. In applying IFRS, management may make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses during the reporting periods. Actual results may differ from such estimates.

(a) Financial instruments

Classification and recognition of financial instruments

IFRS 9, *Financial Instruments*, requires assets to be carried at amortized cost or fair value, with changes in fair value through profit or loss ("FVTPL") or fair value through other comprehensive income based on the entity's business model for managing financial assets and the contractual cash flow characteristics of the financial assets. Assessment and decision on the business model approach used is an accounting judgment.

Based upon the analysis of its business model and contractual cash flow characteristics of its financial instruments, the Funds have determined that its financial assets and financial liabilities will be categorized as FVTPL.

Financial assets and liabilities at fair value through profit or loss ("FVTPL")

All investments held by the Funds are designated as FVTPL upon initial recognition. The Funds included equities, other investment funds, bonds and other interest-bearing investments in this category. These financial assets are designated upon initial recognition on the basis that they are part of a group of financial assets that are managed and have their performance evaluated on a fair value basis, in accordance with risk management and investment strategies of each Fund, as set out in the Funds' offering documents.

Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. The Funds include in this category amounts relating to receivables in respect of amounts receivable for portfolio securities sold, receivable for unitholder subscriptions, accrued dividends receivable, accrued interest receivable and other receivables.

Notes to Financial Statements

December 31, 2020 (continued)

Financial liabilities

This category includes all financial liabilities, other than those classified as FVTPL. The Funds include in this category amounts relating to payables in respect of amounts payable for portfolio securities purchased, payable for unitholder redemptions, management fees payable and other liabilities. These other liabilities are initially measured at fair value and subsequently at amortized cost.

The Funds have a contractual obligation to repurchase redeemable units for cash or in kind. As a result, the Funds' obligation for net assets attributable to holders of redeemable units represents a financial liability and is presented at the redemption amount.

(b) Valuation of financial instruments

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value upon initial recognition. All transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities for such instruments are recognized directly in profit or loss. Receivables and other financial liabilities are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue. For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Funds recognize the difference in the Statement of Comprehensive Income, unless specified otherwise.

Notes to Financial Statements

December 31, 2020 (continued)

After initial measurement, the Funds measure financial instruments that are classified as FVTPL at fair value. Subsequent changes in the fair value of those financial instruments (i.e., the excess/shortfall of the sum of the fair value of portfolio investments over/below the sum of the average cost of each portfolio investment) are recorded in net change in unrealized appreciation (depreciation) of investments. The applicable period net change in unrealized appreciation (depreciation) of investments. The applicable period net change in unrealized appreciation (depreciation) of investments. The applicable period net change in unrealized appreciation (depreciation) of investments is included on the Statement of Comprehensive Income. The average cost of portfolio investments represents the sum of the average cost of each portfolio investment. For the purposes of determining the average cost of each portfolio investment, the purchase prices of portfolio investments acquired by each Fund are added to the average cost of the particular portfolio investment immediately prior to the purchase. The average cost of a portfolio investment is reduced by the number of shares or unit of each portfolio investment sold is determined by dividing the average cost of the portfolio investment by the number of shares or units held immediately prior to the sale transaction. Transaction costs incurred in portfolio transactions are excluded from the average cost of investments, are recognized immediately in net income and are presented as a separate expense item in the Statement of Comprehensive Income. Net realized gain (loss) on sale of investments is also calculated based on the average costs, excluding transaction costs, of the related investment.

Receivables and other assets and liabilities (other than those classified as FVTPL) are measured at amortized cost. The Funds' obligation for net assets attributable to holders of redeemable units is presented at the redemption amount.

The Funds measures its financial instruments, such as equities, other investment funds, bonds and other interestbearing investments and derivatives, at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible to the Funds.

The fair values of each specific type of investments and derivatives are determined in the following manner:

Portfolio investments

For financial reporting purposes, investments are valued at their fair value. Investments held that are traded in an active market through recognized public stock exchanges, over-the-counter markets or through recognized investment dealers are valued at their last traded market price where the last traded market price falls within the day's bid-ask spread. In circumstances where the last traded price is not within that day's bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on specific facts and circumstances. Investments held may include equities, investment funds, bonds and other debt instruments. Any investments that are not valued using the last traded price on the securities exchange can be valued based on other observable market data at the discretion of the Manager. If no trade volume is reported to have taken place, closing bid quotations for long positions from the primary exchange or market makers will be used.

Investments held that are not traded in an active market, if any, are valued based on the results of valuation techniques using observable market inputs where possible, on such basis and in such manner established by the Manager. Investments in other investment funds are valued at the NAV per unit reported by the administrator of the underlying investment fund. See Note 12 for more information about the Funds' fair value measurements.

ONE INVESTMENT POOLED FUNDS

Notes to Financial Statements

December 31, 2020 (continued)

Other financial assets and liabilities

All other financial assets and liabilities of the Funds are measured at amortized cost. Cash, dividends, receivable for units issued, receivable for portfolio securities sold, payable for portfolio securities purchased, distributions payable, other liabilities and payable for units redeemed are stated at the carrying amount, and short-term debt instruments are stated at cost plus accrued interest, which in all cases is a reasonable approximation of fair value.

(c) Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount is reported in the Statement of Financial Position if there is a currently legally enforceable right to offset recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

(d) Investments in associates, joint ventures and subsidiaries

An investment entity is an entity that obtains funds from one or more investors for the purpose of providing them with investment management services, its business purpose is to invest funds solely for returns from capital appreciation, income, or both, and it measures and evaluates the performance of substantially all of its investments on a fair value basis. Subsidiaries are all entities, including investments in other investment entities, over which a Fund has control. A Fund controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and the ability to affect those returns through its power over the entity. Each Fund has determined that it is an investment entity, and as such, accounts for subsidiaries at fair value.

(e) Impairment of financial assets

At each reporting date, the Funds assess whether there is objective evidence that financial assets at amortized cost are impaired. If such evidence exists, the Funds will recognize an impairment loss as the difference between the amortized cost of the financial asset and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. Impairment losses on financial assets at amortized cost are reversed in subsequent periods if the amount of the loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized. The Funds' other financial assets and liabilities are short-term in nature and not subject to impairment.

(f) Investment transactions and income recognition

Investment transactions are recorded on the trade date. Interest income, if any, for distribution purposes from investments in bonds and short-term investments shown on the Statement of Comprehensive Income represents the coupon interest received accounted for on an accrual basis. The Funds do not amortize premiums paid or discounts received on the purchase of fixed income securities, except for zero coupon bonds, which are amortized on a straight-line basis. Dividend income and distributions from underlying funds are recognized on the ex-dividend or exdistribution date when the Funds' right to receive the payment is established. Realized gains and losses from investment transactions are calculated on a weighted average cost basis. Income realized gains (losses) and unrealized gains (losses) are allocated among the series on a pro-rata basis.

The Funds generally incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis, and the related withholding taxes are shown as a separate expense in the Statement of Comprehensive Income.

ONE INVESTMENT POOLED FUNDS

Notes to Financial Statements

December 31, 2020 (continued)

(g) Functional currency, presentation currency and foreign currency translations

The functional currency in which the Funds operate is the Canadian dollar. Amounts received by the Funds on an offering of its units and amounts payable on redemption are received or paid in the functional currency, and the Funds' performance is evaluated and its liquidity managed in the functional currency. Therefore, the functional currency is considered as the currency that most accurately represents the economic effects of the underlying transactions, events and conditions. The Funds' presentation currency is also the Canadian dollar.

Any currency other than Canadian dollar represents foreign currency to the Funds. Transactions during the period, including purchases and sales of securities, income and expenses, are translated into Canadian dollars at the rate of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the exchange rate prevailing at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Realized and unrealized gains and losses on foreign currency translation are included in the Statement of Comprehensive Income as "Foreign exchange gain (loss) on foreign currency related transactions".

(h) Cash and cash equivalents

Cash consists of deposits with financial institutions.

(i) Increase (decrease) in net assets attributable to holders of redeemable units per unit

Increase (decrease) in net assets attributable to holders of redeemable units from operations per unit in the Statement of Comprehensive Income represents the increase (decrease) in net assets from operations attributable to the series for the period divided by the weighted average number of units of the series outstanding during the period.

(j) Unitholder transactions and net asset value attributable to holders of redeemable units per unit

Amounts received on the issuance of units and amounts paid on the redemption of units are included in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units.

A separate NAV is calculated for each series of units of the Funds by taking the series' proportionate share of the Funds' common assets less that series' proportionate share of the Funds' common liabilities and deducting from this amount all liabilities that relate solely to a specific series. The NAV per unit for each series is determined by dividing the NAV of each series by the number of units of that series outstanding on the valuation date.
Notes to Financial Statements

December 31, 2020 (continued)

(k) Distributions

Income earned by the Funds are distributed to holders of redeemable units at least once a year, and these distributions are generally reinvested by holders of redeemable units of the Funds. Net realized capital gains (reduced by loss carryforwards, if any) are distributed in December of each year to holders of redeemable units.

(I) Transaction costs

Transaction costs are expensed and are included in "Transaction costs" in the Statement of Comprehensive Income. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties.

(m) Redeemable units

Redeemable units are classified as financial liabilities and are redeemable at the unitholder's option at prices based on the Funds' NAV per unit at the time of redemption. The amounts are continuously measured at their redemption value.

4. Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future that affect the reported amounts of assets, liabilities, income and expenses during the reporting periods. Actual results may differ from such estimates. The following discusses the most significant accounting judgments and estimates that the Funds have made in preparing the financial statements:

Fair value measurement of derivatives and securities not quoted in an active market

The Funds may hold financial instruments that are not quoted in active markets, including derivatives. Fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources. Broker quotes as obtained from the pricing sources may be indicative and not executable. Where no market data is available, the Funds may value positions using its own models, which are usually based on valuation methods and techniques generally recognized as standard within the industry. The models used to determine fair values are validated and periodically reviewed by the Manager, independent of the party that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk, volatilities and correlations require the Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments. The Funds consider observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. See note 12 for more information on the fair value measurement of the Funds' financial statements.

Notes to Financial Statements

December 31, 2020 (continued)

Assessment as investment entity

Entities that meet the definition of an investment entity within *Consolidated Financial Statements*, ("IFRS 10"), are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- an entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- an entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- an entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

The Funds' offering memorandum or supplemental trust agreements detail the objective of providing investment management services to investors, which includes investing in equities and fixed income securities for the purpose of returns in the form of investment income and capital appreciation.

The Funds report to its investors via semi-annual investor information, and to its management, via internal management reports, on a fair value basis. All investments are reported at fair value to the extent allowed by IFRS in the Funds' financial statements.

The Manager has also concluded that the Funds meet the additional characteristics of an investment entity, in that it has one or more investments; it has more than one investor and its investors are not related parties.

5. Income taxes and withholding taxes

The Funds qualifies as a unit trust under the Income Tax Act (Canada). No provision for income taxes have been recorded in the accompanying financial statements as all income and capital gains of the Funds for the period are distributed to the unitholders to the extent necessary to reduce taxes payable under Part I of the Income Tax Act (Canada) to nil. As a result, the Funds do not record income taxes or deferred tax benefits associated with loss carry forwards and other temporary differences.

The Funds are subject to withholding taxes on foreign income at the prescribed rate on investment income and capital gains. Income that is subject to the withholding taxes is recorded gross of withholding taxes, and the related withholding taxes are shown as a separate expense in the Statement of Comprehensive Income.

6. Redeemable units issued and outstanding

The Funds may issue units in an unlimited number of series and an unlimited number of units of each series. Capital movements are shown on the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units. In accordance with its investment strategies and risk management policies, the Funds endeavour to invest its subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions. Unit transactions of the Funds for the period ended December 31, 2020 are as follows:

ONE Canadian Government Bond Fund	December 31, 2020
Units outstanding - beginning of period	-
Redeemable units issued	24,235
Redeemable units redeemed	(1)
Redeemable units issued on reinvestments	230
Units outstanding - end of period	24,464

Notes to Financial Statements

December 31, 2020 (continued)

ONE Canadian Corporate Bond Fund	December 31, 2020
Units outstanding - beginning of period	-

Redeemable units redeemed	(1))
Redeemable units issued on reinvestments	2,201
Units outstanding - end of period	115,294
ONE Canadian Equity Fund	December 31, 2020
Units outstanding - beginning of period	
Redeemable units issued	33,730
Redeemable units redeemed	(1)
Redeemable units issued on reinvestments	738
Units outstanding - end of period	34,467
ONE Global Equity Fund	December 31, 2020
Units outstanding - beginning of period	-
Redeemable units issued	78,702
Redeemable units redeemed	(1)
Redeemable units issued on reinvestments	2,880
Units outstanding - end of period	81,581

7. Management fees

The Funds have appointed the Manager to provide management services including key management personnel. The Manager receives an annual fee plus applicable taxes based on the NAV of the Funds units, accrued daily and payable monthly. The foregoing fees include fees paid to external portfolio managers and all operating expenses of the Funds, other than trading costs and expenses, fees paid in respect of securities regulatory filings, taxes and interest are charged as an expense in the Statement of Comprehensive Income. The annual management fees are noted in the following table:

Fund	Management Fee
ONE Canadian Government Bond Fund	0.35%
ONE Canadian Corporate Bond Fund	0.40%
ONE Global Bond Fund	0.45%
ONE Canadian Equity Fund	0.55%
ONE Global Equity Fund	0.75%

The management fees received by the Manager is subsequently paid equally between Local Authority Services ("LAS") and CHUMS Financing Corporation (CHUMS) who are members of ONE Investment.

The manager was created jointly by LAS and CHUMS. See note 8 for more information on the related parties.

Notes to Financial Statements

December 31, 2020 (continued)

8. Related Party Transactions

One Investment ("ONE") is the Manager of the Funds. It is a not for profit organization incorporated without share capital. The members of the Manager are LAS and CHUMS. There are no units of held by the Manager in any of the Pooled Funds as at December 31, 2020. Management fees paid by the Manager during the year were:

LAS	402,382
CHUMS	<u>402,381</u>
Total	<u>804,763</u>

9. Tax loss carryforwards

Capital losses for income tax purposes may be carried forward indefinitely and applied against capital gains realized in future periods. Non-capital loss carryforwards may be applied against future years' taxable income. Non-capital losses that are realized may be carried forward for 20 years. Since the Funds do not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the Statement of Financial Position as a deferred income tax asset.

The Funds did not have non-capital losses or capital losses as at December 31, 2020.

10. Brokerage commissions on securities transactions

The Funds pay brokerage commissions related to its direct holdings in equities and other transaction costs for portfolio transactions for the period ended December 31, 2020. Neither the Manager nor the Funds have received investment or research services from brokers in exchange for the commissions paid by the Funds to execute securities transactions ("soft dollars"). The brokerage commissions and transaction cost paid by the Funds in the period ended December 31, 2020 are as follows:

Fund	Brokerage commissions and transaction costs
ONE Canadian Government Bond Fund	-
ONE Canadian Corporate Bond Fund	-
ONE Global Bond Fund	-
ONE Canadian Equity Fund	9,495
ONE Global Equity Fund	

11. Financial instruments risk

The Funds' activities expose it to various types of risks that are associated with its investment strategies, financial instruments held and markets in which it invests. The most significant risks to potentially affect the Funds include credit risk, liquidity risk, and market risk (which includes currency risk, interest rate risk and other price risk). In order to create and protect shareholder value, the Funds seek to manage risk through a process of identifying, measuring and monitoring its activities, subject to risk limits and other controls. The Funds have investment guidelines that set out its overall business strategies and general risk management philosophy. Some Funds invest in Underlying Funds. These Funds are indirectly exposed to market risk, credit risk, and liquidity risk in the event that the Underlying Funds invest in financial instruments that are subject to those risks. These risks and related risk management practices employed by the Funds are discussed below:

Notes to Financial Statements

December 31, 2020 (continued)

(a) COVID-19

The outbreak of a novel and highly contagious form of coronavirus ("COVID-19") has resulted in numerous deaths, adversely impacted global commercial activity and contributed to significant volatility in various economic markets. The extent of the impact of COVID-19 or any other public health emergency will depend on many factors, including the duration and scope of such public health emergencies, the impact of such public health emergencies on overall supply and demand, goods and services, investor liquidity, consumer confidence and levels of economic activity. As a result of the uncertain implications of COVID-19 factors used for the sensitivity analysis in the relevant risk sections above, where applicable, were adjusted to reflect a more volatile risk variable than usual as at December 31, 2020

(b) Credit risk

The Funds are exposed to credit risk, which is the risk that a security issuer or counterparty will be unable to pay amounts in full when due. The fair value of debt securities includes consideration of the credit worthiness of the issuer. All transactions in listed securities are settled upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligations. The Funds also may invest in derivative instruments such as forward currency contracts; therefore, the Funds are subject to credit risk if the counterparty fails to meet its obligations. The Manager may choose to utilize multiple counterparties and those that have a high credit rating in order to minimize credit risk.

As at December 31, 2020, the following Funds had exposure to credit risks:

Notes to Financial Statements

December 31, 2020 (continued)

(c) Liquidity risk

Liquidity risk is the possibility that investments of the Funds cannot be readily converted into cash when required. The Funds may be subject to liquidity constraints because of insufficient volume in the markets for the securities of the Funds or the securities may be subject to legal or contractual restrictions on their resale. In addition, the Funds are exposed to cash redemptions of redeemable units. The units of the Funds are redeemed on demand at the current NAV per unit at the option of the unitholder. Liquidity risk is managed by investing the majority of the Funds' assets in investments that are traded in an active market and can be readily disposed. The Funds aim to retain sufficient cash and cash equivalent positions to maintain liquidity; therefore, the liquidity risk for the Funds are considered minimal.

With the exception of derivative contracts, where applicable, all of the Funds' financial liabilities are short-term liabilities maturing within 90 days after the period end.

(d) Market risk

The Funds' investments are subject to market risk, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The following include sensitivity analyses that show how the net assets attributable to holders of redeemable units would have been affected by a reasonably possible change in the relevant risk variable at each reporting date. In practice, the actual results may differ and the differences may be material.

(i) Currency risk

The Funds hold assets and liabilities that are denominated in currencies other than its functional currency. It is therefore exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. As well, the Funds may enter into forward foreign exchange contracts primarily with the intention to offset or reduce exchange rate risks associated with the investments and also, periodically, to enhance returns to the portfolio. The Canadian dollar value of forward foreign exchange contracts is determined using forward currency exchange rates supplied by an independent service provider. Losses may arise due to a change in the value of the foreign currency or if the counterparty fails to perform under the contract.

The Funds were exposed to currency risk to the extent that its investments in financial instruments denominated in a foreign currency.

The tables below summarize the exposure of the Funds to currency risk as at December 31, 2020. The tables also include the impact to net assets attributable to holders of redeemable units if the Canadian dollar had strengthened or weakened by 5% in relation to all foreign currencies, with all other factors remaining constant. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Notes to Financial Statements

December 31, 2020 (continued)

As at December 31, 2020, the following Funds had exposure to currency risk through its investment in underlying funds. The tables summarize the Funds share of its underlying funds' exposure to currency risk:

ONE Global Bond Fund	Currency risk exposed holdings \$ ('000)	Forward foreign exchange contracts \$ ('000)	Net exposure \$ ('000)	Asa%of NAV (%)	Im pact on NA V \$ ('000)

Total	79,917	-	79,917	95.01	3,996

Notes to Financial Statements

December 31, 2020 (continued)

(ii) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or fair values of financial instruments. Interest rate risk arises when the Funds invest in interest-bearing financial assets or financial liabilities. The Funds would be exposed to the risk that the value of such financial assets or financial liabilities will fluctuate due to changes in the prevailing levels of market interest rates. In addition, as interest rates fall and fixed-income security issuers prepay principal, the Funds may have to reinvest this money in securities with lower interest rates. The Funds' exposure to interest rate risk would be concentrated in its investment in money market instruments and fixed income securities. Other assets and liabilities are short-term in nature and/or non-interest bearing.

As at December 31, 2020 the following Funds were exposed to interest rate risk:

	Term to Maturity			
Fund	<1 year	1 - 3 years	3 to 5 Years	>5 Years
ONE Canadian Government Bond Fund	4,213,764	9,094,367	7,526,208	3,557,795
ONE Canadian Corporate Bond Fund	3,041,496	6,360,100	4,934,013	10,096,864
ONE Global Bond Fund (from underlying fund)	2,720,953	12,106,443	22,293,077	70,511,947

As at December 31, 2020, had prevailing interest rates raised or lowered by 1%, with all other variables held constant, net assets attributable to holders of redeemable units would have increased or decreased, respectively, by approximately the amounts indicated below. In practice, actual results may differ from this sensitivity analysis.

Fund	Impact on NAV
ONE Canadian Government Bond Fund	629
ONE Canadian Corporate Bond Fund	1,466
ONE Global Bond Fund (from underlying fund)	4,143,872

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The Manager aims to moderate this risk through a careful selection and diversification of securities and other financial instruments within the limits of the Funds' investment objectives and strategy.

The impact on net assets attributable to holders of redeemable units of the Funds due to a 10% change in market prices, as at December 31, 2020, are shown in table below, with all other variables held constant. In practice, actual results may differ from this sensitivity analysis.

Fund	Impact on NAV
ONE Global Bond Fund	11,854,708
ONE Canadian Equity Fund	3,866,782
ONE Global Equity Fund	8,410,380

Notes to Financial Statements

December 31, 2020 (continued)

(e) Portfolio concentration risk

Concentration risk indicates the relative sensitivity of the Funds' performance to developments affecting a particular industry or geographical location. Concentration of risk arises when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

The portfolio management team manages the risk through diversification and a thorough understanding of each investment in the portfolios. The following are a summary of the Funds' concentration risk as at December 31, 2020:

ONE Canadian Government Bond	December 31, 2020
	%

Notes to Financial Statements

December 31, 2020 (continued)

12. Fair value measurement

The Funds classify fair value measurements within a hierarchy that gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1: Fair value based on unadjusted quoted prices in active markets for identical assets or liabilities that the Manager has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active.

Level 3: Inputs based on at least one significant non-observable input that is not supported by market data. There is little if any market activity. Inputs into the determination of fair value require significant management judgment or estimation.

If inputs of different levels are used to measure an asset's or liability's fair value, the classification within the hierarchy is based on the lowest level input that is significant to the fair value measurement. The following fair value hierarchy tables present information about the Funds' assets and liabilities measured at fair value within the fair value hierarchy as at December 31, 2020:

ONE Canadian Government Bond Fund	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Financial Assets				
Fixed Income	-	23,402,352	-	23,402,352
Short-Term Investments	-	989,782	-	989,782
Total Financial Assets	-	24,392,134	-	24,392,134
ONE Canadian Corporate Bond Fund	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Financial Assets				
Fixed Income	-	24,182,520	-	24,182,520
Short-Term Investments	-	249,953	-	249,953
Total Financial Assets	-	24,432,473	-	24,432,473
ONE Global Bond Fund	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Financial Assets				
Investment Funds	-	118,547,084	-	118,547,084
Total Financial Assets	-	118,547,084	-	118,547,084
ONE Canadian Equity Fund	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Equities	38,667,824	-	-	38,667,824
Short-Term Investments	-	834,981	-	834,981
Total Financial Assets	38,667,824	834,981	-	39,502,805
ONE Global Equity Fund	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Financial Assets				
Investment Funds	-	84,103,804	-	84,103,804
Total Financial Assets	-	84,103,804	-	84,103,804

All fair value measurements above are recurring. Fair values are classified as Level 1 when the related security or

derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of the instrument's fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3.

There were no transfers into or out of Level 1, Level 2 and Level 3 during the period ended December 31, 2020.

(a) Equities

The Funds' equity positions are classified as Level 1 when the security is actively traded and a reliable price is observable.

(b) Fixed income and short-term investments

Fixed income include primarily government and corporate bonds, which are valued using quotation services with inputs including interest rate curves, credit spreads and volatilities. The inputs that are significant to valuation are generally observable and therefore the Funds' bonds and short-term investments have been classified as Level 2.

(c) Investment funds

The Funds' holdings in underlying mutual funds are classified as Level 2 and priced by the underlying funds' investment managers based on the NAV of the funds.

(d) Derivative assets and liabilities

Derivative assets and liabilities consist of foreign currency forward contracts that are valued based primarily on the contract notional amount, the difference between the contract rate and the forward market rate for the same currency, interest rates and credit spreads. Contracts for which counterparty credit spreads are observable and reliable, or for which the credit-related inputs are determined not to be significant to fair value, are classified as Level 2.

13. Interest in Unconsolidated Structured Entities

The Funds qualify as investment entities under IFRS 10, Consolidated Financial Statements, and therefore accounts for investments at FVTPL. The Funds' primary purpose are to obtain funds from investors to provide them with investment management services and to obtain a return primarily from capital appreciation and/or investment income. The Funds also measure and evaluate their performance on a fair value basis. In determining whether the Funds had control over an investee, the Funds assessed the voting rights, the exposure to variable returns and its ability to use the voting rights over the investee to affect the amount of the returns.

The table below describes the entities that the Funds does not consolidate but in which it holds an interest as at December 31, 2020:

ONE Global Bond Fund	% of netassets of the Fund	% of ownership interest
Manulife Investment Management Strategic Income Pooled Fund	100.03%	3.58%
	% of netassets of	% of ownership
ONE Global Equity Fund	% of netassets of the Fund	% of ownership interest

14. Capital management

Units issued and outstanding are considered to be capital of the Funds. The Funds are not subject to externally imposed capital requirements and have no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Funds' offering memorandum. The capital received by the Funds are managed to achieve its investment objective, while maintaining liquidity to satisfy unitholder redemptions.

Units of a series are redeemable at the NAV per unit of the respective series. Changes in the units issued and outstanding of each series for the period ended December 31, 2020 are reported in note 6 above.

ONE INVESTMENT POOLED FUNDS

Notes to Financial Statements

December 31, 2020 (continued)

15. Increase (decrease) in net assets attributable to holders of redeemable units

The increase (decrease) in net assets attributable to holders of redeemable units per unit for the period ended December 31, 2020 are as follows:

	Increase (decrease) in net assets attributable to holders of	Weighted average units outstanding in	redeemable units per
	redeemable units	the period	unit
ONE Canadian Government Bond Fund	256,711	24,283	10.57
ONE Canadian Corporate Bond Fund	326,783	24,283	13.46
ONE Global Bond Fund	5,419,871	113,363	47.81
ONE Canadian Equity Fund	5,806,746	33,729	172.16
ONE Global Equity Fund	5,350,601	78,700	67.99

16. Filing exemption

In reliance upon the exemption in Section 2.11, NI 81-106, *Investment Fund Continuous Disclosure*, the financial statements of the Funds will not be filed with the securities regulatory authorities.
